Mystic Rose

A three week meditative therapy group

Laughter ~ tears ~ silence

The Mystic Rose is a three-week process, lasting three hours per day. During the first week, participants laugh "for no reason at all," dissolving the blocks to their inner spontaneity and joy. The second week is devoted to crying, and the third week to silent watching and meditation. Osho says about it:

Uniquely simple and effective, these methods involve a minimum of interaction among the participants, but the energy of the group helps. Laughing each individual go more deeply into his or her own process. No "therapist" is required, but only a facilitator who has gone through the process and has been trained in conducting it.

The symbol of the Mystic Rose is that if a man takes care of the seed he is born with, gives it the right soil, gives it the right atmosphere and the right vibrations, moves on a right path where the seed can start growing, then the ultimate growth is symbolized as the mystic rose - when your being blossoms and opens all its petals and releases its beautiful fragrance.
